SAU9 Chromebook Distribution - Updates and Guidance

As we look forward to Chromebook and material pick up tomorrow to support our move to remote instruction on Monday we would like to provide the following update:

- The conditions continue to change rapidly. To address concerns and minimize any potential exposure, all surfaces on all Chromebooks/devices are being cleaned a second time, prior to distribution.**
- As a precaution, please continue to keep all devices clean. Please do NOT use sprays on the Chromebooks. Do wipe them down on a regular basis.**
- Please minimize sharing of devices.**
- If you do not feel comfortable taking a Chromebook, do not feel obligated to do so. However, we have them available for every student who would like a school device.**
- Pick up for materials is at each individual school. You will be asked to remain in your vehicle and materials will be brought to you.**
- Please check the SAU9 website or the Conway Daily Sun for pick up schedules and information.**

Thank you for your continued partnership and support.
